

Maths Revision Cards

January 2017

Dear Parent

In line with the new Maths GCSE (grades 9-1) Curriculum, Corbettmaths have produced a brand new set of 90 revision cards for each of the Foundation and Higher Tiers of entry.

Through Moodle the Mathematics department have promoted the use of the Corbettmaths website for some time now – and these revision cards are an excellent extra resource. We can now offer pupils the opportunity to purchase these GCSE revision cards to help them prepare for their GCSE examination. We can obtain the sets of cards for £6.25 each, which is lower than the advertised price (can be purchased online for £8.99 plus P&P). They have all the key pieces of information for each topic, a space to make your own notes and a QR code links to the specific questions, worked solutions and YouTube clips for each topic.

The revision cards will be available to purchase from Pupil Services or through the school's online payment scheme. If your child is a Pupil Premium pupil they will receive a set free of charge. If this applies to your child, they should let reception know when purchasing and there will be no cost.

90 Engaging revision cards for the New GCSE

I would also like to take this opportunity to advertise important maths equipment we are also now selling at Pupil Services. It is increasingly vital that all pupils are well equipped for lessons, so we thought we would order the equipment we would recommend as we may be able to offer this to you at cheaper prices than you are likely to find in shops.

We are offering the following three products:

Exam Kit: A large, clear exam kit pencil case complete with compass and pencil, 12"/30cm shatter resistant ruler, protractor and pencil sharpener. **£1** (usually £2-£4 in shops)

Scientific Calculator: Casio FX85GT scientific calculator, solar/battery powered, twinline display. 249 functions, slide-on case. Now with Natural Textbook display (you can enter expressions as seen in text books – strongly recommended for the new GCSE). **£8.50** (RRP £13.99)

Multifunction Pen: Bic 2-in-1 retractable ball pen featuring 3 medium nibs for normal writing and a mechanical pencil. 3 colours black, blue and red with a 1.0mm medium pen tip. 2 x 0.7mm HB leads and eraser end. **£2** (£7.31 on Amazon)

We hope the above supports you to ensure your child has the correct equipment and therefore have the best opportunity for success in Mathematics.

Yours sincerely

Mr E J Whatley
Head of Mathematics
